

Gouli P. Sharath Kumar

Full-Stack MERN Developer · Technical Program Associate · AI Tools Practitioner
9986013285 · sharathgouli20@gmail.com · Bengaluru (Open to Relocate) · [GitHub](#) · [LinkedIn](#)

PROFESSIONAL SUMMARY

Full-Stack MERN Developer with strong fundamentals in building and deploying multi-role web applications. Experienced in translating business requirements into structured technical plans, API documentation, and delivery coordination. Comfortable using AI tools (Claude, ChatGPT, Cursor) throughout every phase of development. Seeking to grow as a Technical Program Associate — bridging technical execution and product delivery in a fast-paced, AI-driven environment.

SKILLS & COMPETENCIES

Frontend	React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design, Context API, React Router
Backend	Node.js, Express.js, REST API Design, JWT Auth, MongoDB, SQL, Firebase
AI & Tools	Claude, ChatGPT, Cursor — used daily for planning, debugging, and documentation
Program Skills	Requirement gathering, feature breakdown, API documentation, QA testing, delivery tracking
Dev Tools	Git, GitHub, Vercel, Render, Netlify, Postman, VS Code

PROJECTS

HireFlow — Job Portal & ATS | *React · Node.js · Express · MongoDB · JWT* → [Live ↗](#)

- ▶ Full-stack job board with three roles (Employer, Job Seeker, Admin) — complete from job posting to application tracking
- ▶ Recruiter dashboard with candidate pipeline, mirroring real-world ATS and program delivery tracking workflows
- ▶ End-to-end architecture planning, API design, role-based access control, and deployment on Vercel / Render
- ▶ Used Claude and ChatGPT to generate documentation drafts, debug edge cases, and plan feature rollout sequences

AI Text Summarizer | *React · Node.js · Groq API · LLaMA 3.3 70B* → [Live ↗](#)

- ▶ Integrated Groq's LLaMA 3.3 70B API to build a production-grade AI summarization tool with a clean React frontend
- ▶ Designed the API layer, prompt engineering, and error handling — direct experience with AI tool integration
- ▶ Demonstrates hands-on capability with modern AI APIs; directly relevant to Falcon Reality's AI work

FoodSafe Manager | *React · Node.js · SQLite · Vercel / Render* → [Live ↗](#)

- ▶ Full-stack food inventory and expiry tracker — built solo, end-to-end, for a targeted offline company drive
- ▶ Gathered requirements, made architecture decisions, and handled SQLite migration for Render compatibility
- ▶ High ownership delivery — zero team support, from requirement gathering to live production deployment

Jobby App — Job Listing Platform | *React · React Router · REST API · JWT* → [Live ↗](#)

- ▶ Frontend React app with protected routes, JWT-based login, dynamic job listings with filter and search
- ▶ Integrated third-party REST APIs, handled loading / error / empty states, and implemented responsive design
- ▶ Demonstrates strong React fundamentals, component architecture, and clean user flow design

NxtTrendz — E-Commerce App | *React · Context API · JWT · REST API* → [Live ↗](#)

- ▶ E-commerce platform with product listing, cart management via Context API, authentication, and order flow
- ▶ Built reusable components, managed global state cleanly, and implemented protected routes with JWT
- ▶ Production-level frontend React skills with attention to UX and component structure

TRAINING & EXPERIENCE

Full-Stack Developer — MERN Track — *NxtWave CCBP Academy* 2023 – 2025

- ▶ Completed 9 industry certifications: React.js, Node.js, JavaScript, Databases, Responsive Design, and more
- ▶ Delivered 5+ full-stack projects independently — planning, coding, QA, and deployment end-to-end
- ▶ Practiced structured API documentation, feature breakdown, and AI-assisted development throughout

EDUCATION

B.A. — History & Economics | *Sri Shankar Anandsingh Degree College, Hospet* 2020 – 2023

CERTIFICATIONS — NXTWAVE CCBP ACADEMY

React.js · Node.js · JavaScript Essentials · Responsive Website Design · Introduction to Databases · Developer Foundations · Programming Foundations · Flexbox · Static Website Development

ACHIEVEMENT

Industry-Ready Certificate of Specialization — Full Stack Development with MERN May 2026

NxtWave CCBP 4.0 Intensive · Verified by NASSCOM · ID: 6DW7830GF7 · 24+ Assignments & 600+ Hours of Coding · [Verify Certificate ↗](#)

WHY FALCON REALITY

Falcon Reality's mission — helping companies build practical AI systems that create measurable business impact — aligns directly with how I work. I actively use AI tools at every stage of development: planning, coding, debugging, and documentation. I bring technical depth in full-stack MERN, an ownership mindset, and genuine enthusiasm for growing from developer to program associate alongside a CTO.
